## Chromebook™ 11

- Intel® Celeron<sup>3</sup> Processor
- Optional 4G LTE Networking<sup>1</sup>
- Military Grade Impact Resistance<sup>2</sup>
- Unique Liquid Drainage Keyboard & Touchpad

<sup>1</sup> 4G LTE speed and availability vary on the area. Check your telecoms provider for details.

<sup>2</sup> Tested by a national independent third party test lab following MIL-STD-810G Method 516.6, Procedure IV for transit drop test.

<sup>3</sup> Specifications may vary depending on model and/or region.

Water drainage capability

Up to 12-hour battery life

802.11ac  
Wireless connection

1. Specifications vary depending on model.  
 2. Shared system memory may be allocated to support graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by any memory used by the graphics solution and resources required by the operating environment.  
 3. Memory speed may vary, depending on the CPU, chipset or memory fitted.  
 4. All brands and product names mentioned herein include trademarks of their respective companies and are used solely to describe or identify the products.  
 5. 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.  
 6. Weight may vary depending on product configuration, vendor components, manufacturing variability, and selected options.  
 7. The listed battery life is tested by Google according to this formula (the test loops and continues running until the battery is drained): The first 60% of the test period is 1) Browsing: A new web page is loaded every minute. The web page is scrolled down to the first "page fold" (the bottom of the part of a web page that is visible on an average screen – a depth of around 600 pixels) every 10 seconds, then scrolled back up at the same rate. The next 20% of the test period is 2) Email: Gmail is loaded in the foreground tab and audio is streamed from a background tab. The next 10% is 3) Documents: Various Google Docs are loaded. The final 10% is 4) Online Video: A full-screen 480p YouTube video is played.

In a continuing effort to improve the quality of our products, information in this document is subject to change without notice. Images shown are only representations of some of the configurations available for this model. Availability may vary depending on region.  
 As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
